

OUR LEADERSHIP WORKSHOP:

CHARISMA & PERSONAL IMPACT

"People buy into the leader before they buy into the vision" (John Maxwell)

ABOUT

This interactive and experiential workshop takes participants through a journey to one of the most fascinating and intriguing human traits: charisma.

While charismatic leaders are persuasive and easily build trust and respect of others, many leaders still struggle to lead with positive impact and promote their agenda. Luckily, studies show that charisma's captivating tools and mindset are evidently trainable.

IGNITE THE FLAMES OF CHARISMA WITHIN

Unlike many charisma trainings, we will NOT focus on presentation and public-speaking skills. At **Maximize Self** we believe that charisma & personal impact begin with a deep understanding of who YOU are as a leader- your values and standards - and mastering the psychology of your "crowd" and their needs and values.

WHAT DO YOU GET

Great leadership is the most important competitive advantage a company can have. Through simple, fun and challenging exercises you will:

- ✓ Turn-up the 'volume' of your inner source of charisma - cultivate your unique leadership style to advance yourself, your team and your organization;
- ✓ Master the 5 keys of charismatic leadership;
- ✓ Control and manage your impact to create a culture of high-performance and achievements;

TARGET AUDIENCE

Leaders & Executives at all levels who are keen to develop themselves and up-level their impact and leadership skills;

WHEN & WHERE

Our workshops are tailored to your organization's specific needs. This workshop is normally a full-day hands-on experience on/off site.

WORKSHOP TRAINER

Sigal Zion develops innovative leadership workshops where she leads participants to unravel their inherent potential. With her direct approach she quickly 'hits the nail on the head' and motivates participants to connect with their essence. Sigal holds a master's degree (MSc.) in Organizational Development from the University of Utrecht (Holland) and her leadership programs are a fascinating mix of academic knowledge and years of practice in the field of Personal Development: from the Coaching Training Institute (CTI) to metaphysics methods.
